VI. PROBLEMS and ISSUES

1. Global Economic Crisis which cause:
   1.1 Continued decrease in enrolment which in turn led to the closure of some member-schools
   1.2 High cost of classroom/instructional materials and school operations which render quality education rather inaccessible on the part of the students.

2. Negative effects of the following:
   2.1 IT globalization
   2.2 Absentee parents/OFW/migrant workers/dysfunctional families

3. Mushrooiming of non-sectarian learning centers/educational institutions in the area/locality

4. Lack of communication facilities to reach out member schools in remote areas.

5. Non-payment of membership fees by some member-schools due to decrease in enrolment.

6. Non-participation/involvement of some member-schools in regional assemblies of CEAP-VI

7. Discrepancies in the list of member-schools. Closed or non-operational schools are still listed in the CEAP Directory while the new members are not in the list.

8. The issue on the integration of Sex Education in the Basic Education Curriculum.
